Payroll Discrepancies

Dear:  
Brothers and Sisters,

The Payroll Discrepancy language has been improved in this round of Bargaining to be more efficient for our members. Previously, if there was a payroll discrepancy the company would investigate and majority of the time the member would be paid on the following pay cycle.

We have now managed to come to an agreement with the company and improve the language.

In the case a member fills a discrepancy form, and the company investigates the discrepancy challenge where the company is deemed to be wrong, the company will rectify the error within Three (3) business days via an **Express Deposit**. The express deposit will be given within Three (3) business days if the discrepancy is more than \$75.00.

Please refer to **SECTION 20.3** of the Collective Agreement.

In Solidarity,  
L.L Communicator 2921
